RE: Request for Board Approval, Amount and Form of Replacement Reclamation Surety, Harper Contracting, Inc. (Harper), Parley's Canyon Quarry, M/035/012, Salt Lake County, Utah

The Division seeks Board approvals of the amount and form of replacement reclamation surety provided by Harper for the Parley's Canyon Quarry, located in Salt Lake County, Utah. The form of surety is a rider to the existing surety bond with National Fire Insurance Company, increasing the amount from \$36,800 to \$46,200 (2003 dollars). This operation started out as a small mining operation, expanded to a large mine status and was approved by the Board in March 1996. Harper is amending the approved permit application to reduce the size of the originally proposed quarry area and add a second crushing and screening circuit to the project. The total disturbed acreage (21.9 acres) will not change from the amount approved in the original permit.
